Skills

-
- **Languages & Core Tools:** Python, C, C++, Java, SQL, Git, LaTeX, RISC-V Assembly, HTML, C#
 - **Frameworks & Libraries:** React Native, PostgreSQL, Supabase, PyTorch, OpenCV, MediaPipe, Revit API, PyRevit.
 - **Core Competencies:** Machine Learning, Systems Programming, Cross-Platform App Development, Back-end Web Development, BIM Automation, Neural Networks

Experience

Interstate Mechanical Contractors / VDC Piping Detailer

JUNE 2023 - PRESENT ~ KNOXVILLE, TN

- **IMC PT:** Developed the "IMC Production Tracking" cross-platform application utilizing Microsoft's PowerApps to monitor construction job zones and installation milestones.
- **PyRevit:** Engineered custom Python and PyRevit scripts interfacing with the Revit API to automate trapeze and clevis hanger placement across MEP models, significantly reducing manual design time.

Education

University of Tennessee - Knoxville / BS in Computer Science

AUGUST 2023 - MAY 2027 ~ KNOXVILLE, TN

- **Minor:** Machine Learning
- **Concentration:** Artificial Intelligence
- **Medical Image Viewer:** Developed an application utilizing Qt and OpenCV to visualize and process medical scan data, implementing interactive rendering features for image analysis and diagnostic support.
- **Project Wallflower:** Engineered a web-based computer vision application using C++ and HTML to analyze rock climbing routes, judge their difficulty, and plan out randomized routes based on selected difficulty.

Awards

-
- **Academic Honors:** Dean's List (F25, S26), Graduating Cum Laude
 - **Scholarships:** Volunteer Scholarship, Merit Scholarship, Hope Scholarship, John & Manora Viles Scholarship, UT Engineering Scholarship
-
